

L4000

➔ Intelligent Fingerprint Door Lock System

Material Zinc Alloy/Stainless steel finish
Dimension (LxWxH) : 312.8 x 77.5 x 38.5mm
Fingerprint Sensor : 500 DPI Optical Sensor
Storage Capacity :
Fingerprint : 500
Card (Optional) : 100
Password : 100
Event Logs : 30,000
Identification Speed : ≤ 1.5 sec
FAR : ≤ 0.0001%
FRR : ≤ 1%
Communication : USB
Operating Temperature : 0°C - 45°C
Operating Humidity : 20% - 80%
Power input : 4 x 1.5v AA alkaline Battery
Backup unlock mechanism :
- Emergency battery
- Mechanical key

LED Indicator : Red : Failed
Green : Successful
Door Thickness : Standard : 35 to 50mm
Optional: 50 to 65mm / 65 to 80mm
Optional : Card : ID card, Mifare card
Key : Remote Control Key

Features:

- ▶ "The deadbolt will be locked automatically once the door is closed"
- ▶ Idle handle design to prevent from forcible entry
- ▶ Four independent unlocking- fingerprint, password, card, mechanical Key
- ▶ Smart alarm for low battery & illegal operation
- ▶ Support passage mode - Normal Open
