| ITEM NO        | TW 9001 / TW 9002          |
| Unlocking Ways | RFID Card & mechanical Key |
| Material       | SUS304                     |
| Certificate    | FCC, CE                    |
| Mortise        | 6#ANSI                     |
| Color          | Silver, Golden             |
| Warranty       | 02 Years                   |
| Weight         | 2.6KG                      |

1. Unlocking by RFID card + mechanical key in emergency
2. Support card type: Temic T5557 card, 125KHz or M1fare S50 card, 13.56MHz
3. Material: SUS304 stainless steel
4. Powered by 4pcs AA Alkaline battery
5. Battery life: 10000 Transactions
6. Low voltage alarm
7. Door ajar alert
8. DND (Do not disturb) function available
9. Management classification: support 14 types of cards including authorization card, clock card, room number setting card, master card, emergency card, floor card, building card, guest card, temporary card, housekeeping card, alarm card, no-disturbing card etc.
10. Hidden cylinder
11. Hotel locking system includes: hotel locking software, encoder, RF card, energy saving switch, data collector
12. Warranty: 2 years, lifetime maintenance
13. Hotel software interface with other PMS (API / SDK can be provided)
14. Front panel size: W77.1\*H293\*D65.1mm, back panel size
