

Beetel M75

Product Description

Enjoy long, clear, and secure conversations with your relatives and friends with this corded landline phone from Beetel installed at your home. You can also know the caller's identity before you pick up the call with its caller ID feature.

Speaker Phone

You don't have to hold the receiver against your ear throughout the time that you converse with someone on the other side. Turn the speaker mode on, sit back, relax, and carry on with your conversation with comfort.

Phone Memory

This phone has a built-in memory that can store up to 99 phonebook entries. Store names and numbers of your frequently dialled contacts by using its alphanumeric keypad. Desire more? Its memory is also programmed to store and let you retrieve the details of the last 130 calls - 80 incoming and 50 outgoing.

Display for Caller's Information and Temperature

The 16-digit LCD has a backlight so you don't have any trouble in viewing the caller's information in dim-lit surroundings. This display also indicates the room temperature.

Selectable Ringtones

You can choose the ringtone for your incoming calls from a wide selection of 10 polyphonic and 18 other ringtones that are programmed in this phone.
