

Beetel X91

Product Description

The X91 Cordless Phone is a secure, convenient and advanced home communication device that ensures that your home and your loved ones are always accessible. Plus, its powerful battery allows it 100 hours of standby and 8 hours of talk time. And to add to that, it keeps up to 100 numbers stored in its memory and has a caller history of 30 incoming + 20 outgoing numbers.

2.4 GHz Digital Technology Cordless

Radio scanners can pick up lower frequencies, which means someone could be easily listening in to your conversations. The X91's 2.4 GHz is a more advanced digital frequency that allows for more secure phone calls with crystal clear voice quality. This matters especially if you often talk to family and friends living overseas

100 Number Phonebook

You don't need to memorise or repeatedly dial the numbers of people you frequently call. The 100 number phonebook of the X91 ensures you have ease of access of your frequently dialled contacts in just a few clicks.

Blue Backlit Display

The Blue Backlit LCD display doesn't just looks stunningly cool, it makes it really easy to find and dial contacts and set up the phone according to your liking. The blue display is soothing to the eyes, and also helps you instantly locate the phone in the dark, of someone calls in the night.

Speaker Phone with Adjustable Volume

When your hands are busy, you don't need to awkwardly press the phone between your ears and shoulder. You can simply switch to the speaker mode and hear the

caller through the X91's clear audio speaker. Another advantage of having the speaker mode is that more people can hear and talk to the caller from your end, just as if that person was present in the room.

8 hours talk time/100 hours standby

With the powerful battery of the X91 Cordless, you can keep the conversation going for as long as you want. The battery gets charged fast and allows a staggering 8 hours of talk time and an unbeatable 100 hours of standby. So you don't have to keep the phone on charging every time or even every day! The cordless phone simply charges when you put it on the phone unit.
