

poe switch

ONETOUCH 8 PORT POE SWITCH – OT-1708P

Overview

Onetouch 8 port 10/100M unmanaged PoE switch. It has 8*10/100M PoE ports and 2*10/100M uplink RJ45 ports. Port 1-8 can support IEEE 802.3af/at standard PoE power supply, and single port PoE power reaches 30W. The maximum PoE output power is 96W. As a PoE power supply device, it can automatically detect and recognize the power receiving equipment that meets the standard and supply power through the network cable. It can supply power to POE terminal equipment such as wireless AP, webcam, VoIP, visual intelligent building intercom through network cable, and meet the network environment that needs high-density PoE power supply

Features

8*10/100 Base + 2*100M RJ45 Port PoE Switch,
1-8 ports support IEEE802.3af/at
Comply with IEEE 802.3, IEEE 802.3u, IEEE 802.3ab standards
Power Wattage is 96W, PoE port support AF/AT intelligent recognition.
Standard power is 12W/port, Maximum power: 30W/port
Support Port self-healing, VLAN, extend 250 meter distance
Auto Speed Change, Priority port
With the Dial code switch, support port priority by default.
E: AI Extend 250 meters transmission and auto speed change of single port (limit 10Mbps), other ports maintain 10M/100M within 100 meters
V: Turn on, 1-8 Port support each port Isolation & VLAN;
D: Turn on, 1-8 Port support AI-PoE Network self-healing mode
Supports POE devices such as wireless access points (APs) and network surveillance cameras through Category 5/6 Ethernet cables;

CE, EMC, FCC Certified

FEATURES

8 X 10/100 Mbps PoE + 2 X 10/100M Uplink Ethernet

Fully IEEE802.3af Standard

Surge Protection upto 6Kva

Auto Sensing, IPv4, QoS

PoE Power : 96 Watt

Extend POE : Upto 250 mtrs

Interface : RJ45 10/100 Mbps

Processing 802.3x Full Duplex

Bandwidth 2 Gbps (non blocking)

Network Latency less than 20ms

Power Input : 230V DC

Operating Temp : -10 to 55 C

Humidity : 90%

Ordering Information

Model: 1708P

2 Year Warranty
