

## PORTABLE TYRE KILLER

Portable tyre killer provides effective Road Blockage against forceful entry of vehicle at vital Defence Installation/ Units and also at very high security zones/ buildings like Parliament House, President House, Embassies, Airports, Power Plant, and vital security establishment.

Its strong hardened and sharp triangular spikes are pulled out manually. If attempted to drive through at any speed, its spikes are specially designed to penetrate into the vehicle tyre, and release air within the tyre quickly yet safely, causing the vehicle to stop. The time taken for these spikes to spread on the road is not more than 5 seconds. The deployment of portable road blocker by one man.

The entire portable road blocker is designed in such a manner that no digging of road is required for its installation and operation.

### Special Feature

- It is available in 15ft length to cover across the road.
- It is fitted with heavy duty hook and rope on both sides
